

**An Analysis of Participation and Competitive Success
at USUDC 2008-2015**

by:

Melanie Nadon (University of La Verne)

Rob Ruiz (University of La Verne)

At the 2013 United States Universities National Debate Championships, the coaches unanimously agreed that statistics should be kept and maintained, regarding schools, gender, and hopefully soon, ethnicity. Thanks to conveners publicly releasing tournament tabs, we have been able to contact coaches and competitors in order to provide these statistics. This set of data is for public use for any educator to utilize the research. More importantly, this data will hopefully serve as an apparatus for teams and coaches to recognize where they stand within the community, and the community as a whole when it comes to an inclusive representation of debaters and judges. The statistics of previous years (2005 through 2007) will hopefully soon be available once we can attain those tabs and continue our findings. These statistics continue to be a work in progress and will soon be completed.
